Survival cards

For the moments that break most plans.

Weddings and dawats

THE PLATE RULE

- **Before:** shake or a protein meal, never arrive starving
- **Plate:** tikka, kebab or roast first, salad, then 1 roti or a small spoon of rice
- **One plate.** No second round of biryani
- **Dessert:** 2 bites or skip
- **Drinks:** water, Coke Zero
- **Next day:** eat normally, 12k steps. Don't starve to make up. The scale will be up 1-2 kg from water

Karachi restaurant orders

WHAT TO PICK

- **BBQ:** chicken tikka, seekh kebab, salad, 1 roti. Go easy on malai boti and paratha
- **Desi:** share one karahi, ask for less oil, 1 roti. Skip nihari and paye at night
- **Chinese:** chicken with vegetables or steamed. No fried rice or Manchurian
- **Burgers:** grilled chicken, no mayo, no fries
- **Shawarma:** plate version, sauce on the side, no fries
- **Fast food:** avoid. If stuck: grilled option and Coke Zero

Late-night hunger

AFTER 11 PM

- Kitchen is closed: brush your teeth
- Shake with water, or plain dahi, or cucumber
- Green tea or Coke Zero
- Usually it's tiredness, not hunger. Go to sleep

Plateau troubleshooter

2 WEEKS, NO MOVEMENT

- 1. Are you counting the 7-day average, not single days?
- 2. Weekends: two loose days erase the week
- 3. Oil: is it really measured?
- 4. Sugar or chai creeping back?
- 5. Steps: really 10k, or 7?
- 6. Sleep under 6 hours? It hides fat loss behind water
- 7. All clean? Remove breakfast carbs for 2 weeks

Bad day rule

MIX: HARD ON EFFORT, CALM ON MISTAKES

- One bad meal is one bad meal. The next meal is normal
- Never 'start again Monday'. Start again at the next meal
- Missed a workout? Walk 12k steps and do the next session in order
