PROJECT

NEW ME

Tuesday 3 November 2026 → Friday 15 January 2027

Start	Target	Days	Rate
96 kg	85 kg	73	~1 kg / week

Seventy-three days. No one is coming to do this for you, and no one can stop you either.

The honest version

85 kg in 73 days is the edge of what's safe. Everything has to go right. If you finish at 86-87, you've still lost 9-10 kg and about 10 cm off your waist, and you'll look like a different person. Aim for 85. Be proud of anything under 88.

My why

Write this on day 1, in Notes or on a screenshot of this page. Read it every Sunday. When you want to skip, this is what you read.

Question	Your answer
Why 85 kg by my birthday?	
How will I feel on 15 Jan if I do this?	
How will I feel if I don't?	
Who will notice first?	
What's my excuse usually, and what's my answer to it?	

Letter to 15 January me

Write 5 lines to yourself, to be read on your birthday morning. What you promised, what you're scared of, and what you're going to prove.
